

Bark Busters

Multiple Revenue Opportunities

Revenue Opportunities

Bark Buster Franchise Owners have many opportunities to build the revenues of their business.

Individual Training

Every owner and dog is different. Working one-on-one with a trainer provides custom solutions and guaranteed results immediately. This type of training provides a wonderful opportunity for your business.

Puppy Schools

Young dogs need to be socialized. Working in a small group setting, puppies learn how to “play nice.”

Owners learn what to expect now and as their dogs grow into adulthood. And you receive payment from multiple customers at the same time. Everyone wins!

Socialization Classes

Older dogs also need to learn how to play well with others. This class helps full-grown dogs and their owners learn to interact safely with new playmates, making dog parks and public spaces even more fun.

Product Sales

Competitive prices and unbeatable quality standards separate Bark Busters products from the rest of the pack. Customers can easily purchase much-needed items from Bark Busters trainers in the convenience of their home. Our ever-expanding product line ensures our customers have everything they need to train and entertain their dog.

An online store provides further opportunity for revenue, allowing customers to order refills and additional supplies. Conveniently purchased from home and with quality standards they know they can rely on, customers are flocking to our website. All orders are filled quickly from our central warehouse. And profit from each sale in your territory is quickly deposited in your account.

Many products, like food supplements, even have recurring shipment dates, providing a continuous stream of additional income for your business.
