

Bark Busters

Multiple Revenue Opportunities

Revenue Opportunities

Bark Busters franchise owners have many opportunities to build the revenues of their business.

Individual Training

Every owner and dog is different. Working one-on-one with a trainer provides custom solutions and immediate results. This type of training provides a wonderful opportunity for your business.

Puppy Schools

Young dogs need to be socialized. Working in a small group setting, puppies learn how to “play nice.” Owners learn what to expect now and as their dogs grow into adulthood. And you receive payment from multiple clients at the same time. Everyone wins!

Socialization Classes

Older dogs also need to learn how to play well with others. This class helps full-grown dogs and their owners learn to interact safely with new playmates, making dog parks and public spaces even more fun.

Product Sales

Competitive prices and unbeatable quality standards separate Bark Busters products from the rest of the pack. Clients can easily purchase much-needed items from Bark Busters trainers in the convenience of their homes. Our ever-expanding product line, including items such as KONG® & Canine Genius toys, as well as Buster's Secret™ Urine & Stain Remover, ensure our clients have everything they need to train and entertain their dog.

The online Bark Busters Boutique provides further opportunity for revenue, allowing clients to order refills and additional supplies. Conveniently purchased from home and with quality standards they know they can rely on, clients are flocking to our website. All orders are filled quickly from our central warehouse. And profit from each sale in your territory is quickly deposited into your account.

Products, like food supplements, even have recurring shipment dates, providing a continuous stream of additional income for your business.

Pet-related Service Affiliations

In addition to Bark Busters' sales and services, we also have affiliations with other pet-related services. These affiliations, such as Pet-Togethers pet vitamins, 1-800-HELP-4-PETS, & Pet Protector ID System, allow you to offer additional products and information to your clients while offering you alternative streams of revenue.
